90,720 Visitors from 82 Countries

With technology and other infrastructure proving to be a great leveller, the world is becoming a global village. PrintPack India 2021 celebrates this in the context of the printing and packaging industry.

The cover image of the eye signifies the vision of the industry as a whole with the eye ball representing the globe and the three colours signifying the diversity of the industry while still working towards one goal.

“2021 will herald true globalisation for PrintPack India. We are striving hard to make it a must-attend event for every organisation in our core domains around the world.”

WHERE THE WORLD CONVERGES
Pre-press, Press, Label Printing, Signage, Screen & Textile Printing, Digital, Post-press, Corrugation, Converting, Rigid & Flexible Packaging, Service & Software, Paper and Consumables & Spares from across the world. PrintPack India is the iconic event that has been on the itinerary of global players from all these sectors and more.

PrintPack India 2021 will be a 6 day Mega Exhibition to help the players across the world showcase their offerings, technology and their future. This is where they will all converge. What about you?
INDIA AND ITS INCREDIBLE POTENTIAL

India topped the World Bank’s growth outlook for the first time in 2015–16, during which the economy grew 7.6%. A young population, English proficiency, corresponding low dependency ratio, healthy savings & investment rates, and increasing integration into the global economy has helped the country break out of its sluggish growth rates. And this is only going to keep getting better.

Could there be a better place or time to be?

INDIA WELCOMING THE WORLD SINCE 302BC

India has irresistibly drawn the world’s traders and business travellers since the time of Megasthenes and Marco Polo.

The cradle of one of the oldest known civilizations, today India is third largest economy (on PPP basis), the largest democracy, the land of 330 million Gads, the hub of spiritual masters and yogis, the abode of the Mighty Himalayas, the Majestic Tiger and the holy Ganga.

Get ready to be swept off your feet.
**PRE-PRESS**

The correction & polishing of images and chiseling of graphics are critical components of making printing look good. This is what Pre-press is all about.

The contributions of the Pre-press Sector will be on display at the PrintPack India 2021 as it unveils its latest technologies to global audiences.

**PRESS**

The Printing Industry ranges from Offset Lithography to Flexography and Gravure. The relentless rise of literacy and the boom in consumerism has fueled the growth of this industry.

Watch this industry make a mark at the PrintPack India 2021.

**POST-PRESS**

The final presentation of the printed product through stitching, binding and other services is the domain of the Post-press. No printing can be termed complete without this stage.

Witness it in its full glory at the PrintPack India 2021.
CORRUGATION

The Corrugation Industry is growing in leaps & bounds in terms of technology and capacity.

PrintPack India 2021 will bring you face to face with this transformation.

PARTNER -
CORRUGATED PACKAGING INDUSTRY

FCBM - The Federation of Corrugated Box Manufacturers

Corrugated boxes play a major role in e-commerce. FCBM is an association representing the interest of corrugated box manufacturers in the country. Established in 1971, the Federation comprises of 12 Associations, each representing a geographical area of the country. FCBM develops, evaluates and provides packaging solutions for a wide range of products from grocery to cosmetics, clothing to electronic goods, chemicals to heavy engineering equipment, and Fresh Fruits & vegetables to Processed foods.
LABEL PRINTING

The print label market was valued to USD 37.62 billion in 2018 and is expected to reach USD 47.89 billion in 2024 at a CAGR of 4.11% over the forecast period 2019-24.

The rapid ascension of digital print technology has made the print labels market more sophisticated and increased the adoption of print labels globally. Their versatility and flexibility, combined with high graphics standards are key growth features.

At the PrintPack India 2021, the Packaging Industry is going to unpack its latest wares.
GLIMPSES OF PRINTPACK INDIA 2019
INDIAN PRINTING & PACKAGING INDUSTRY

The Indian Printing and Packaging Industry is as large as its Population and Demand; people are taking keen interest in this key industry now. Being the fastest developing industry, there is a huge scope for ultra-modern printing, healthy & attractive printing and packaging products.

The growth of this sector attributes to the main reason - spread of education. According to the 2011 census report literacy growth in India touched nearly 74.04 per cent. However, it is predicted that currently the literacy rate is 85% - 90%. Printing and Packaging is now one of the biggest industries of India.
